SUNDAY SCHOOL HYMN
WE'RE MARCHING TO ZION

Come, we that love the Lord, and let our joys be known,
Join in a song with sweet accord, join in a song with sweet accord,
And thus surround the throne, and thus surround the throne.

Let those refuse to sing who never knew our God;
But children of the heavenly King, but children of the heavenly King
May speak their joys abroad, may speak their joys abroad.

CHORUS

We're marching to Zion, beautiful, beautiful Zion.
We're marching upward to Zion, the beautiful city of God.

Sincerity, Gratitude and Appreciation,
On behalf of the Keith (Juanetta) Johnson family, we express our sincere, gratitude and appreciation to the Mt. Hermon Baptist Church Family, for your thoughts, prayers and support given during the transition of our mother Mrs. Jean Hale. Truly, God's love is demonstrated each time we, as a church family, meet. It

has been your support that made our journey through this difficult period easier. We are thankful to be a part of the Mt. Hermon Baptist Church Family and that God's Love, Grace, and Mercy resides here. To the Mt. Hermon Baptist Church Family, your support is greatly appreciated and will never be forgotten. *The Johnson & Hale Family*

BREAST CANCER

AWARENESS MONTH

What is Breast Cancer?

Breast cancer is a malignant (cancer) tumor that starts in the cells of the breast. It is found mostly in women, but men can get breast cancer, too. This information is only about breast cancer in women.

Factors That Increase Your Risk

The main factors that influence your risk for breast cancer include being a woman, being older (most breast cancers are found in women who are 50 years old or older), and having changes in certain breast cancer genes (BRCA1 and BRCA2). In addition, studies have shown that some other factors may also influence your risk.

Factors That Increase Your Risk

- Long-term use of hormone replacement therapy.
- Personal history of breast cancer or non-cancerous breast diseases.
- The family history of breast cancer (on either your mother's or father's side family).
- Treatment with radiation therapy to the breast/chest.
- Exposure to diethylstilbestrol (DES) (for example, if you took DES during pregnancy or your mother took DES during her pregnancy with you).
- Dense breasts by mammogram.
- Night-shift work.

Factors That Decrease Your Risk

- Being older when you first had your menstrual period.
- Starting menopause at an earlier age.
- Giving birth to more children, being younger at the birth of your first child, and breastfeeding your children.
- Getting regular exercise.
- Maintaining a healthy weight.

Some women will develop breast cancer even without any known risk factors. Having a risk factor does not mean you will get the disease, and not all risk factors affect your risk to the same extent. Most women have some risk factors and most women do not get breast cancer. If you have breast cancer risk factors, talk with your doctor about ways you can risk lower and about screenings for breast cancer.
